SUMMARY

Full-stack web developer and open-source enthusiast with a love for clean code and accessible design. I am conversant with multiple languages, and frameworks, such as Ruby on Rails, React, and Ruby. I am able to collaborate with other software developers remotely without any hassles or conflicts.

SKILLS

Front-End: JavaScript, React, Redux, HTML5, CSS3. Back-End: Ruby, Ruby on Rails, PostgreSQL, Firebase

Tools & Methods: Git, GitHub, Render, Netlify, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools

Professional: Remote Pair-Programming, Teamwork, Mentoring.

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS

Remote

Full-Stack Web Developer

November 2022 - Present

<u>MiniChatApp</u> — This is a web application that is a real-time chatting app. It was built with React and Firebase for authentication and a real-time database.

• Built with: React, CSS, and Firebase.

<u>Kenstagram</u> – This is a social media web application developed by me with inspiration coming from Instagram. It was built with React and Firebase for authentication and a real-time database.

Built with: React, CSS, and Firebase.

<u>Budget-Tracker</u> — Used to keep track of a user day to day spending/budget. It allows users to create an account, create categories, and place budgets based on the categories to keep their budgets well organized.

Tech Stark: Ruby on Rails, CSS.

SIDE HUSTLE

Remote

Frontend Web Developer (Internship)

March 2023 - April 2023

- Created 2+ static web pages using JavaScript, HTML5, and CSS3 and used the latest javascript syntaxes to develop maintainable codes during the program.
- Worked with other interns in building web pages remotely.

MICROVERSE

Remote

Mentor (Volunteer)

September 2022 - Present

- Mentored 2+ junior web developers monthly, providing technical support through code reviews.
- Proposed improvements to code organization to improve code quality and overall performance.
- Provided multiple pieces of advice on how to maintain motivation to maintain longevity in the program.

BACKUP PROPERTIES

On-site

Construction Supervisor (Internship)

September 2021 - November 2021

- Gained valuable skills such as Management · Construction · Team Leadership
- Helped supervise an ongoing project of a 3-story building.
- Made sure workers met up with the building requirements.
- Made sure architectural designs were met and followed accordingly.

EDUCATION

MICROVERSE

- Spent 1300+ hours mastering algorithms, data structures, and Front-End development while simultaneously developing projects with JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.
- Improved my communication and leadership skills.
- Followed various right-code practices to create clean and readable code.

Yaba College of Technology

January 2020 - Present

ND, Building Technology

- Learned the basics of visual basic programming language.
- Used several design tools to make real-life construction drawings for several projects and assessments.
